## PROFESSIONAL SUMMARY

Aspiring Front-End Developer with strong skills in HTML, CSS, JavaScript, Figma, and Canva. Skilled in creating responsive, user-friendly web designs with a focus on clean layout and usability. Proficient in turning UI/UX concepts into interactive web interfaces through self-driven learning and practice. Passionate about web design, clean code, and continuous improvement. Eager to contribute creativity and technical skills to help drive company success.

## SKILLS

**Front-End Technologies:** HTML, CSS, JavaScript

**UI/UX Design Tools:** Figma, Canva

**Development Tools:** Visual Studio Code, GitHub

## PROJECTS

### Portfolio Website [GitHub](#)

Built a responsive portfolio using HTML5, CSS3, JavaScript with mobile-first design, achieving 95+ Lighthouse scores via optimization techniques. Added interactive elements (animations, theme switcher) and form validation. Deployed on GitHub Pages. Demonstrates strong front-end skills and clean code standards.

### Simple Calculator [GitHub](#)

Developed an interactive calculator using HTML5, CSS3, and JavaScript with responsive design that works across all devices. Implemented core arithmetic operations (addition, subtraction, multiplication, division) with real-time calculation functionality. Optimized the interface for instant results and keyboard support, ensuring a smooth user experience. Demonstrates strong DOM manipulation skills and clean JavaScript practices.

### Weather App [GitHub](#)

Engineered a weather app from scratch with vanilla JavaScript, HTML5, and CSS3—directly integrated Open Weather API for live forecasts. Engineered a responsive, mobile-first UI with geolocation, interactive elements, and error handling. Version-controlled via GitHub with daily commits, ensuring clean, maintainable code.

## INTERNSHIPS

### Full-Stack Web Development Intern

May 2024 – July 2024

#### Main Flow Services & Technologies

Built responsive websites with HTML5/CSS3/JavaScript, creating interactive galleries and landing pages to enhance engagement. Optimized performance, managed GitHub version control, and resolved front-end issues through debugging and cross-browser testing.

## **Web Development & Hosting Intern**

**Mar 2024 – April 2024**

### **Gaurav Go Technologies**

I built responsive websites using my HTML, CSS & JavaScript skills, making them work perfectly on all devices. Created modern, mobile-friendly designs with clean code. Published all my work through GitHub Pages to show my real projects. Fixed bugs and optimized performance to make websites run super fast.

## **EDUCATIONS**

---

### **PVKK Institute of Technology, Anantapur**

Bachelor of Technology in Electronics & Communication Engineering | CGPA: 7.3 | 2021-2025

### **S.S.G.S. JR. College, Guntakal**

Intermediate in M.P.C | CGPA: 6.0 | 2019-2021

### **Dr. Rajendra Prasad MPL High School, Guntakal**

SSC (Matriculation) | CGPA: 8.0 | 2018-2019

## **STRENGTHS**

---

- Built 3+ responsive web apps (HTML5, CSS3, JavaScript)
- Achieved 95+ Lighthouse scores via optimization
- Maintained clean code with GitHub version control
- Solved 50+ frontend bugs through debugging

## **INTERESTS**

---

- Developing side projects to explore web technologies
- Contributing to open-source frontend projects
- Solving coding challenges on LeetCode
- Designing UI prototypes in Figma

## **CERTIFICATIONS**

---

- Web Development & Hosting – Gaurav Go Technologies
  - Full Stack Web Development – Main Flow Services & Technologies
  - NPTEL - Internet of Things
-
